PROFILE SUMMARY

Front-End and Python Developer with hands-on experience in HTML and basic web development. Skilled in writing clean, efficient Python code and handling fundamental computer operations. Strong understanding of front-end structure and user-focused design principles. Passionate about continuous learning, problem-solving, and improving technical skills. Able to work independently as well as in a team environment. Committed to building practical, reliable applications with a focus on performance and usability. Seeking opportunities to grow as a developer and contribute to real-world projects..

WORK EXPERIENCE

HTML & Front-End Development

- Created basic web pages using HTML as part of academic coursework. Worked on page structure, forms, links, and basic layouts. Applied front-end concepts to meet assignment requirements.

Python Programming

Developed simple Python programs for academic projects, including basic logic, loops, functions, and file handling. Focused on writing clean and readable code to solve assigned problems.
